

# Environmental Sustainability Policy

Schofield Lothian is a consultancy that provides Professional Services within the Transport and Infrastructure, Property and Energy Market sectors.

Schofield Lothian's objective is to fully integrate environmental sustainability and green procurement considerations into all business strategies, with a view to contributing to sustainable development and reducing the environmental impacts associated with its operations. Schofield Lothian's recognition of sustainability is integral to the safe, efficient and reliable delivery of services, which enhance the local environments in which the company operates. This applies to the management of our own premises and the delivery of our commercial and project management services to clients.

Schofield Lothian is committed to:

- Compliance with all applicable legal and other requirements
- The prevention of pollution and the protection of the environment in the vicinity of all our business operations
- Fully understanding our environmental impacts and monitoring the reduction of adverse impacts of our operations on the environment and local community
- The implementation of a business-specific environmental management system to meet the requirements of ISO 14001
- The integration of appropriate environmental responsibilities into relevant job descriptions
- Developing objectives and targets and independently monitoring and reporting annually on our progress, to ensure continual improvement of our environmental performance
- Demonstrating the efficient use of raw materials, as well as taking appropriate opportunities to minimise waste and re-use and recycle wherever possible
- Calculating and reducing our carbon footprint and supporting our clients' carbon reduction strategies where possible
- Raising awareness of staff, suppliers and contractors to ensure effective management of our environmental impacts and enhancement of sustainability options
- Working in partnership with our clients, suppliers and contractors to promote, where practicable, the adoption of best practice environmental sustainability techniques
- Complying with our Supply Chain Management Procedure in our Business System (SBS)

We are currently developing our SBS to meet the new ISO:9001:2015 standard, in line with the transitional arrangements set out in the new standard.

Signed:

Kevin Corcoran - Managing Director
